- Git
- Jira / Confluence
- Visual Studio

Interest, Hobbies

- Video Games
- My Dogs
- Audio / Music Production
- Neuroscience / Psychology
- Retro Electronics / History
- Photography
- Fine Carpentry
- Mountain Biking

Micah Joyner

UI / UX Designer & Full Stack Developer

Technically savvy designer with 25+ years experience in the software industry developing web solutions and 5+ years designing the intuitive, human centered, and accessible user experiences that drive those solutions.

Experience

UX Designer, Front-end Developer, Accessibility Specialist

Acro Commerce | Kelowna, BC | July 2020 - October 2024

- Led the research team and created the design strategy, information architecture and user interface for a new initiative by Northern Health to address the resourcing gap in BC’s healthcare industry by creating an online recruitment tool and information resource.
- Architected and developed a design system and integration framework to accelerate prototyping during the IA phase, and created a tighter more robust relationship between design components and their software developed counterparts.
- Spearheaded an accessibility initiative, integrating accessible design principles into every stage of product development.

User Interface Architect, Developer Hybrid

Atomic47 | Kelowna, BC | April 2019 - August 2020

- Led the UI/UX design and frontend development of the LODE.one Cryptocurrency User Portal project. Included wireframes, prototypes, and high fidelity designs.
- Implemented and established a Test Driven Development approach to internal React / Laravel based webapps.
- Built the corporate marketing websites for the LODE.one project (www.lode.one, www.agxpay.com).

Interface Developer

Greenspace Mental Health | Kelowna, BC | June 2018 - April 2019

- Improved the user experience and workflow with user centered design thinking practices by iterating and improving on the existing design system through frontend development best practices
- Full-stack development using Django / Python and the latest front-end tech.

Education

Springboard - Design and Visual Communications

UI/UX Design | Certificate | 2021

Arts Institute - Vancouver

Recording, Post-Production Audio Engineering | Certificate | 2005
